

# Managing Invasives in Natural Areas

---

Andrea Diss-Torrance  
Wisconsin, DNR

- 
- ❖ What role does your property play in the larger ecosystem of the region?
  - ❖ Define the goal or goals for the property.
  - ❖ If there is more than one goal, prioritize or determine the area in the property to which each applies.

- 
- ❖ Consider all options for management regardless of controversy or cost.

- 
- ❖ Evaluate management options,
    - Take the long term view.
    - Think outside your property.
