

**NAASF Forest Resource Planning Committee
Conference for State Forest Planners and GIS Professionals**

October 16-18, 2007

Courtyard by Marriott Downtown—Indianapolis, Indiana

“Redesigning State and Private Forestry: A Look into the Crystal Ball”

Poster Presenters and Topics

Rebecca Gass Wisconsin DNR – Feasibility of Cross-Boundary Coordination of Private Forest Landowners

Matt Keefer – PA DCNR –BOF – 2007 State Forest Resource Management Plan Update

Elizabeth LaPoint – USFS FIA – The National Biomass and Carbon Dataset 2000: High Spatial Resolution Baseline to Reduce Uncertainty in Carbon Accounting and Flux Modeling

Tom Luther – USFS – Durham, NH - Estate Planning as a Way to Curb Parcelization and Fragmentation

Don Mansius – Maine Forest Service – Outcome based Monitoring of Best Management Practices: Putting the Data to Work in Maine.

Joe Petroski – PA DCNR – BOF – PA Spatial Analyst Program Results

Paul Roth – PA DCNR –BOF – Inventory Design for The Quehanna Wild Area.

Matt Tansey – NH – I don’t know; he didn’t send me anything but Brett Martin received something.

Rebecca Whitney – USFS – Durham, NH – Forests, Water & People: Drinking water supply and forested lands in the Northeastern US

Thomas Worthley – CT - Community Resource Inventory. The CRI is a web-based tool that enables the user to access, combine in various ways, view and print out geographic data and natural resource information without needing any GIS expertise.
